

AI HUB ACCELERATOR

A ranked shortlist in. A funded action plan out.

One day with your AI and IT leaders to turn your prioritized use cases into a platform design, a governance path, and a detailed, costed roadmap — with Microsoft funding arranged to execute it.

One prerequisite. Three ways to arrive.

MICROSOFT HOSTED

AI Innovation Hub

You explored the art of the possible and left with priority use cases.

ARCHITECTNOW HOSTED

AI Strategy Day

You scored the backlog and left with a ranked shortlist and owners.

CUSTOMER LED

Internal Exercise

Your own team already prioritized your key AI use cases.

Whichever path you took, the prerequisite is the same: **your high-priority AI use cases are identified and you are ready to plan your next steps.** Think of this as “Day Two” of your AI journey — the second step, where strategy becomes detailed action. It doesn’t have to happen the day after; it happens when you’re ready.

1 day

On site or virtual — deep dives can optionally spread over multiple days

5

Steps, from backlog review to deep dives

3–5

Priority use cases, deep dived one by one

60m

Per deep dive, so SMEs join only their session

WHAT YOU GET

A platform design, a report per use case, and a costed roadmap.

01 Recommended Microsoft AI platform design

Matched to the AI archetypes found in your backlog.

03 Platform cost estimates

What it costs to run the Microsoft AI platform.

05 Implementation roadmap with TCO

Deeper than the AI Day roadmap; your team’s dependencies flagged.

02 A report for each priority use case

Objectives, success criteria, data readiness, ROI, timeline, and more.

04 Recommended implementation approach

How each use case should be built and integrated.

06 Microsoft funding, arranged

We arrange funding from Microsoft to execute the roadmap.

HOW IT WORKS

Five steps. Design the platform by lunch, deep dive the use cases after.

01 · MORNING

Use Case Review

A quick overview of every AI use case planned in the backlog.

02 · MORNING

Priority Double-Click

A brief pass on each of the highest priority use cases — typically the top 3 to 5.

03 · MORNING

AI Platform Design

The AI archetypes in your backlog, covered via a Microsoft AI platform design.

04 · MORNING

AI Governance

AI readiness for use case adoption and integration.

05 · LATE AM & PM

Use Case Deep Dives

60 minutes on each priority use case, one after another.

INSIDE EACH DEEP DIVE

- Business challenge and potential value
- Solution objectives and success criteria
- Process and data dependencies
- Use case pattern mapped to the Microsoft technology landscape
- Regulatory and data classification
- Volumetrics for the use case
- Organizational change impact
- Technology readiness

WHO’S IN THE ROOM

AI and IT leaders participate in the entire day. **Business SMEs** join only the 60-minute deep dive for their own use case — one focused session, not a lost day.

WHY ARCHITECTNOW

• 4 Solutions Partner Designations

Data and AI · Digital and App Innovation · Infrastructure Azure · Support Services.

• Azure AI MVPs on Staff

Engagements led by Microsoft-recognized practitioners. 15+ years on the stack.

• AI Apps on Azure Specialization

Held by less than 4% of partners. Production AI on Azure, verified by Microsoft.

• Microsoft Frontier Funding · qualified accounts

Five times the funding is available now, so there has never been a better time to start. Subject to Microsoft eligibility.

Turn your shortlist into next steps.

30-minute sponsor call to confirm your use cases and set the agenda.
