

AI PILOT IMPLEMENTATION · COPILOT / FOUNDRY / AZURE AI · FRONTIER FUNDED

One use case in. A live solution in production out.

Four weeks with ArchitectNow engineers to build and deploy a working AI solution on Microsoft Copilot / Foundry / Azure AI — in your environment, on your data. We discover, design, build, test, and deploy a pilot that proves real value in production, then deliver an action plan for moving the solution into production.

PICK YOUR PILOT

EXAMPLE BUSINESS-VALUE PILOTS — AGENTIC INSIGHTS / AUTOMATION, DOCUMENT INTELLIGENCE, COGNITIVE VISION & MORE

MULTI INDUSTRY

- ◆ **KYC Agent** — automate new-customer research & the right next actions
- ◆ **Lead-to-Order Automation** — automate intake & contracting for new orders
- ◆ **Order-to-Cash Automation** — inventory, build plan & dispatch for closed orders
- ◆ **Support Intake Automation** — triage & dispatch from voice, email & text

FINSERV

- ◆ **Document Validation Automation** — onboarding proofs: ID, income, insurance
- ◆ **Fraud & Anomaly Detection** — proactive transaction monitoring & alerts

MANUFACTURING

- ◆ **Cognitive Quality Control** — vision & sound signals validate product quality
- ◆ **Predictive Maintenance** — balance maintenance spend against uptime

RETAIL

- ◆ **Out-of-Stock Forecasting** — predict stock-outs 2+ days in advance
- ◆ **Scrap Prediction** — predict perishable scrap & trigger dynamic pricing

CONSTRUCTION

- ◆ **Safety Equipment Adherence** — cognitive vision confirms PPE use on site
- ◆ **Predictive Benefits** — predict energy & cost savings from retrofits

HEALTH / EDU

- ◆ **Clinical Notes Transcription** — automated case transcription & templating
- ◆ **Agentic Onboarding** — improve recruitment, admission & enrollment

These are examples to start the conversation — the best pilot is the one your business already needs. Bring your own.

WHAT YOU GET

Four outcomes, delivered in your environment.

01 Design Specification

Target Copilot / Foundry / Azure AI architecture, data flows & success criteria.

02 Foundation Implementation

Your Microsoft AI foundation stood up — environments, security, pipelines & governance.

03 Pilot Solution Build / Test

The working solution, built on your data and verified against success criteria.

04 Production Planning

An action plan for moving the pilot solution into production.

HOW IT WORKS

Six steps. Discover to Deploy in four weeks.

01 · WEEK 1 · DISCOVER

Discover

Align on the pilot, success criteria, data sources & stakeholders. Confirm environment access, licensing and data readiness.

02 · WEEK 1 · DESIGN

Design

Produce the design specification — Copilot / Foundry / Azure AI architecture, data model & integration points — and agree it with your team.

03 · WEEK 2 · FOUNDATION

Foundation

Stand up the foundation: environments, security, ingestion pipelines & governance, ready for the build.

04 · WEEKS 2-3 · BUILD

Build

Build the pilot solution on your data with ArchitectNow engineers, reviewed with your team as it takes shape.

05 · WEEKS 3-4 · TEST

Test

Validate outputs against the success criteria; tune models, prompts & pipelines until the results hold.

06 · WEEK 4 · DEPLOY

Deploy

Deploy the pilot, then deliver an action plan for production — hardening, operations & handover — plus the roadmap to scale beyond the pilot.

WHY ARCHITECTNOW

● 4 Solutions Partner Designations

Data and AI · Digital and App Innovation · Infrastructure Azure · Support Services.

● Azure AI MVPs on Staff

Engagements led by Microsoft-recognized practitioners. 15+ years on the stack.

● AI Apps on Azure Specialization

Held by less than 4% of partners. Production AI on Azure, verified by Microsoft.

● Microsoft Frontier Funding qualified accounts

Five times the funding is available now, so there has never been a better time to start. Subject to Microsoft eligibility.

Prove AI value in production in four weeks.
