

AI STRATEGY DAY

A hundred ideas in. **One ranked list out.**

One day with your business and IT leaders to agree where AI pays off first. You leave with scored use cases, a ranked shortlist, and a prioritized plan with owners named.

HOW IT WORKS

Four blocks. Roughly 9 to 4, with a working lunch.

01 · MORNING

Vision

Where the business is going this year, what leadership expects AI to change, and what is off the table. This sets the filter.

02 · LATE MORNING

Ideate

Open capture from every function. No filtering yet, including the ideas people assume are too small to mention.

03 · EARLY AFTERNOON

Prioritize

Each use case scored live on value, data readiness, and effort. Scoring out loud stops the loudest idea winning by default.

04 · LATE AFTERNOON

Act

Confirm the priority use cases. Name owners, measures and prerequisites, then agree the sequence for the rest.
