Delivering on the Microsoft stack

CSP

Cloud Solution Provider for Azure and M365

WHAT WE DO

Four practices. One Microsoft stack.

01 AI Solutions

Custom copilots, agents, and AI features designed into your applications and delivered to production on Azure.

03 Data & Analytics

Microsoft Fabric, Power BI, and modern data platforms that get your data ready for AI.

02 App Innovation

Custom software and legacy modernization. Web, mobile, and cloud-native applications on .NET and Azure.

04 Cloud Infrastructure & Support

Azure migration, optimization, licensing, and ongoing managed support as a Cloud Solution Provider.

MICROSOFT CREDENTIALS

Four Solutions Partner designations, verified by Microsoft.

DESIGNATION

Digital & App Innovation

Custom application design and delivery on Azure.

DESIGNATION

Data & AI

Data platforms, analytics, and AI workloads on Azure.

DESIGNATION

Infrastructure (Azure)

Azure migration, architecture, and operations.

DESIGNATION

Support Services

Ongoing managed support for Microsoft workloads.

WHY ARCHITECTNOW

● AI Apps on Azure Specialization

Held by less than 4% of partners. Production AI on Azure, verified by Microsoft.

● AI and governance under one roof

The security and data foundation (Purview, Zero Trust, Cloud Adoption Framework for AI) and the AI build come from the same team.

● Azure AI MVP on staff

Engagements led by Microsoft-recognized practitioners. 15+ years on the stack.

● Microsoft funding pathway · qualified accounts only

We coordinate Microsoft funding nomination with your account team. Subject to Microsoft eligibility.
