Innovate with Azure AI Platforms

About ArchitectNow

ArchitectNow, based in St. Louis, Missouri, delivers cutting-edge software solutions. We simplify complex tech challenges, drive innovation, and help businesses succeed with tailored solutions designed to meet unique needs.

OFFER OVERVIEW

ArchitectNow's Innovate with Azure AI Platforms focuses on leveraging Azure OpenAI, Azure AI Services, Azure AI Foundry Services, and Agentic AI capabilities in Azure, in conjunction with existing Azure services to enhance business processes and deliver intelligent, autonomous solutions as applicable. AI services including AI agents are embedded into solutions to orchestrate workflows, interact with users, and act on data in real time. The goal is to harness the power of these Azure AI platforms to drive innovation, efficiency, and improved decision-making within the organization.

Key activities include prioritizing use cases, designing AI anchored solutions, developing agents and models, integrating applications, and ensuring ongoing optimization—delivering measurable business impact and smarter operations overall.

Key Benefits

What
ArchitectNow
Will Deliver

Our approach includes, but is not limited
to the following key activities:

AI SOLUTION DEVELOPMENT

We will build out the solution — i.e., develop, train, and configure Azure workloads including AI agents, models, and other AI services as needed — to orchestrate workflows, interact with users, act on data in real time.

INTEGRATION WITH EXISTING SYSTEMS

We will integrate AI capabilities seamlessly into your current Azure infrastructure, applications, workloads, and business processes to minimize disruption, maximize interoperability, and ensure smooth alignment with ongoing operations.

TESTING & OPTIMIZATION

We will conduct functional, performance, and security testing of the AI solution and AI agents followed by continuous tuning to maximize accuracy, efficiency and reliability across diverse operating scenarios

USE CASE ASSESSMENT & PRIORITIZATION

We will collaborate with your stakeholders to identify, refine, evaluate, and prioritize AI use cases that deliver the highest business value.

DEPLOYMENT & ENABLEMENT

We will deploy the AI solution and AI agents in a phased approach, provide knowledge transfer, and equip your teams with training and documentation for future enhancements, scalability and adoption.

AI SOLUTION & AGENT DESIGN

We will design AI-powered solutions and intelligent agents leveraging Azure OpenAI, Azure AI Services, Azure AI Foundry, and supporting Azure capabilities to align with your business objectives..

ONGOING SUPPORT & ENHANCEMENT

We will provide post deployment monitoring, support, and enhancements to ensure long-term value and alignment with evolving business needs and technologies.
