

THE BRIEFING

You have Copilot. Now make it change the work.

A 60-minute executive session, and the front door to our AI Innovation Workshop. See Microsoft 365 Copilot, agents, Agent 365, and Cowork on real work, score your top use cases live, and leave with a prioritized shortlist and a date for the workshop.

Copilot, agents, and Cowork on real work

24 hr

Copilot Opportunity Map delivered

WHAT YOU GET

One session, four things you can act on.

01 Copilot Footprint Map

Where Copilot is deployed today, who is actually using it, and where adoption stalled.

03 Scored Use-Case Shortlist

Four to six candidates scored on impact, feasibility, and desirability, narrowed to three in the room.

02 The Art of the Possible

Copilot, agents, Agent 365, and Cowork on real work, plus the practical calls: when to use Copilot Chat, when Cowork, when a purpose-built agent.

04 Constraints and Your Workshop Date

Licensing, permission sprawl, security and governance, adoption, and how you will measure it, then the workshop on the calendar.

HOW IT WORKS

Five minutes of prep. One hour. A decision.

01 · BEFORE

5 minutes

Short intake

Your licensing, where Copilot is deployed today, and the business functions you care most about.

02 · IN SESSION

60 minutes

Four beats

Where Copilot already is, the art of the possible, scoring your shortlist together, then constraints and the next step.

03 · AFTER

24 hours

Opportunity Map

One page: your scored use cases, the constraints we found, and the workshop where we build on them.

WHY ARCHITECTNOW

• Four Solutions Partner designations

Data & AI, Digital & App Innovation, Infrastructure (Azure), and Support Services.

• Best practices, not a product tour

You leave knowing how good teams actually use Copilot, and where the ones that stalled went wrong.

• AI Apps on Azure Specialization

Plus an Azure and AI MVP on staff leading the technical sessions.

• A path that ends in software

We run all-day Microsoft Innovation Hub sessions and build the proof of concept that follows.

Start with the briefing. Leave with a workshop date.

60 minutes, virtual, complimentary. The workshop that follows is complimentary too.
