

WHAT IS REXQL?

Organizations are transforming how they discover insights with **Fabric Agents** — and by integrating Fabric with **Copilot / Foundry**, those insights unleash AI automation. However, organizations often struggle to surface AI insights from operational data not intended for Fabric.

Your solution: RexQL!

With **RexQL**, data in operational databases — SQL Server, PostgreSQL, MySQL, Oracle and others — also drive AI insights / automation. **RexQL unleashes operational data thru AI.**

RexQL deploys thru, and fully integrates with, your existing Copilot / Foundry ecosystem.

AI PILOT IMPLEMENTATION · REXQL · FULLY FUNDED

Operational data in. AI insight & automation out.

Four weeks with ArchitectNow engineers to deploy RexQL in your Azure tenant, connect up to three data sources, and integrate with your Data & AI ecosystem. Fully funded — no cost to you.

4 weeks Fixed scope, deployed in your Azure tenant	\$0 No deployment cost	\$0 RexQL license included	Up to 3 Data sources connected — SQL, Postgres, MySQL, Oracle & more
--	----------------------------------	--------------------------------------	--

WHAT YOU GET

Four outcomes, delivered in your environment.

01 Design Specification

RexQL architecture, data sources & security model.

02 RexQL Deployment

RexQL live in your tenant, connected to up to 3 data sources.

03 AI Insight & Automation

Insights over your data surfaced and ready for AI automation.

04 Go-Live Plan

The action plan to take RexQL to production.

HOW IT WORKS

Six steps. Discover to Plan Go Live in four weeks.

01 · WEEK 1 · DISCOVER

Discover

Agree use cases, data sources & success criteria.

02 · WEEK 1 · DESIGN

Design

Architecture, data connections & security model.

03 · WEEK 2 · DEPLOY

Deploy RexQL

Stand up RexQL in your Azure tenant and connect the first data source.

04 · WEEKS 2-3 · CONNECT & BUILD

Connect & Build

Connect the remaining sources, tune semantics & integrate with your AI ecosystem.

05 · WEEKS 3-4 · TEST

Test

Validate results with your users against the success criteria.

06 · WEEK 4 · PLAN GO LIVE

Plan Go Live

Deliver the go-live action plan and the roadmap to scale.

WHY ARCHITECTNOW

• 4 Solutions Partner Designations

Data & AI · Digital & App Innovation · Infrastructure · Support.

• Azure AI MVPs on Staff

RexQL is built and delivered by Microsoft-recognized practitioners.

• AI Apps on Azure Specialization

Held by less than 4% of partners, verified by Microsoft.

• Microsoft Frontier Funding

qualified accounts
More funding is available now than ever. Subject to Microsoft eligibility.

Make all your structured data available to AI in four weeks.

30-minute sponsor call to pick your data sources.
