

THE ARCHITECTNOW AI FRAMEWORK

Become a **Frontier Firm**, on a foundation you can trust.

We move you through Microsoft's four AI transformation outcomes on a secured data and governance foundation, then design and deliver the solutions on Azure.

THE DESTINATION

The four Frontier Firm outcomes.

- 01 Enrich employee experiences**
Copilot adoption done safely, so your people get productive without opening a data risk.
- 02 Reinvent customer engagement**
AI that reshapes how customers experience you, grounded in your own data.
- 03 Reshape business processes**
Agents that automate the work, from Copilot Studio flows to custom agents on Foundry.
- 04 Bend the curve on innovation**
AI embedded into your own products and platforms on Azure, the edge competitors cannot copy.

HOW WE DELIVER IT

Foundation first, then map, then ship.

1 · FOUNDATION

Step one

Security and data

We set the security and data foundation first, using the Cloud Adoption Framework for AI, Purview, and Zero Trust.

2 + 3 · MAP

Steps two and three

Assessment and workshop

A complimentary 1-hour assessment, then a half-day Innovation Hub workshop to map use cases across the four outcomes.

4 · SHIP

Step four

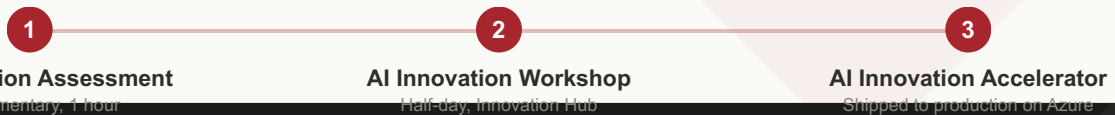

Accelerator on Azure

We design and deliver the proof of concept and ship it to production on Azure, measured on Azure consumption.

WHY ARCHITECTNOW

- **Deliver and secure under one roof**
Managed services, security, and custom delivery in one team, governed by the same people who deliver it.
- **Foundation-first governance**
We lead with the Copilot Control System, security posture, and data readiness, not a rushed rollout.
- **Microsoft-aligned and credentialed**
Four Solutions Partner designations, the AI Apps on Azure Specialization, and an Azure + AI MVP on the team.
- **Partner-led funding**
Where you qualify, we lead with Microsoft-funded engagements so you start with momentum.

THE PATH

Start with a complimentary assessment.

A 1-hour session to map your path to a Frontier Firm.
